

```
import java.util.Random;

public class Main {
    public static void main(String[] args) {

        Random gerador = new Random();

        int[] vetor = new int[10];

        for(int i =0; i < vetor.length; i++){
            vetor[i] = gerador.nextInt(30)+1;
            System.out.println(vetor[i]);
        }
    }
}
```
