

```
class Main {  
  
    public static void main(String[] args) {  
  
        int[] vetorX = {10,20,30,40,50,60,70,80,90,100};  
  
        for (int i = 0; i < 10; i++){  
            System.out.println(vetorX[i]);  
        }  
    }  
}
```
